

Research Data Working Group

Goals

A knowledge network across Dutch university libraries where we can approach colleagues to discuss RDM-related issues

Exchange knowledge about Research Data Management

Focus on library-related expertise: Data curation and data archiving

Plans for 2025 - 4 thematic sessions

1. Community building
2. Data retention guidelines
3. Data access committees and data access request workflows
4. Responsible use of AI in research

Related communities

Data Steward Interest Group
LCRDM/Research Data Alliance
Local and Thematic DCCs

Connections with other working groups

Active participation in **Information Literacy**: Project group Digital Literacy, subgroup Data Literacy and Community Digital Scholarship

Potentially interesting connection with **Auteursrecht**: Copyright on research data?
