

Research Data Working Group

Goals

A knowledge network across Dutch university libraries where we can approach colleagues to discuss RDM-related issues

Exchange knowledge about Research Data Management

Focus on library-related expertise: Data curation and data archiving

2026 - 4 thematic sessions

1. Students and data
2. Non-traditional research outputs
3. RDM FAQs
4. Data monitoring

Members

University Libraries
University of Humanistic Studies
DANS
4TU.ResearchData

Related communities

Data Steward Interest Group
LCRDM/Research Data Alliance
Local and Thematic DCCs

Connections with other working groups

Active participation in **Information Literacy**: Project group Digital Literacy, subgroup Data Literacy and Community Digital Scholarship

Potentially interesting connections with:

Auteursrecht: Copyright on research data?

Digital Scholarship & Skills: Training researchers

Research Support: Matching topics, different organizational levels
